INSTRUCTIONS

A collage can be made from any combination of things. You can plan it out carefully or build it up in a spontaneous way, using as many or as few pieces as you like. There are no mistakes.

1. If you want to design your own unique collage, go to Step 3. If you want to start with a template we have provided, carefully cut out the shapes you like.
2. Place a template over any image in the collaging pages provided, and trace around it with a marker.
3. Cut out the shapes. You may want to cut several of the same shape. You may also find words printed on the collaging pages that you want to cut out.
4. Arrange the cutouts until you are happy with the design.
5. Glue the cutouts on the card or box.
6. (Optional) You can add details, or make elements of your collage stand out by outlining them with a marker.
